Banyan Medical Systems Expanding to Illinois Market

Omaha, NE (May, 2010) Banyan Medical Systems (BMS) will be adding northern Illinois, including the Chicago metro, to its service area. Currently, BMS has sales and support staff covering Nebraska, Iowa, Kansas, and South Dakota.

With a large population of hospitals in the Chicago area, adding northern Illinois to Banyan's service area provides an expansive opportunity for growth.

Banyan Medical Systems will enter the market with its flagship product, ControlOR™. ControlOR™ is an operating room integration solution that allows surgeons and operating room staff to access and interact with patient information in a revolutionary way, thus allowing a comprehensive patient view and the ability for surgeons to make the most-informed decisions possible during surgical cases.

About

Banyan Medical Systems, Inc. is a leading-edge medical software development and integration company dedicated to creating solutions that transform healthcare professionals' ability to access and interact with patient information. Banyan's products are designed to leverage current technology investments and improve efficiencies through a scalable and flexible, dashboard-like solutions that provide physicians and other medical professionals' ubiquitous access to pertinent medical applications needed for a comprehensive patient view.
